# Content

- Legal basis of the program, Principles and Framework
- Overview HTA-Program
- Detail processes of the HTA-Program
- Demarcation
- Work in progress

# **Swiss Federal Health Insurance Act (KVG/LAMal), Principles and Framework**

- **National, mandatory insurance (Health Insurance Law, KVG)**
  - Reimbursement of services in case of illness
  - Comprehensive functional medical care
- **Cantonal supply systems (incl. coordination/ concentration of highly specialized medicine)**
- **Solidarity financing**
  - Insured/premium payers
  - Cantons: Co-financing of hospital in-stay treatments
  - Insured/patients: cost sharing
  - Cantons and confederation: premium reduction

## Definition of services catalogue I

- In general form by the legislator, example:
  - Services intended to diagnose and treat an illness and its consequences (Art. 25 KVG)
  - Medical prevention services (Art. 26 KVG)
  - Maternity services (Art. 28 KVG)
- In detail by the Ordinance giver (Federal Department of Home Affairs (FDHA) or Federal Office of Public Health (FOPH) (Art. 33 and 52 KVG)
  - ⇒ ***Uniform Catalogue of services for all insured persons***

## Definition of services catalogue II

- Open Service catalogue for non-controversial medical and chiropractic services
    - With the designation of medical and chiropractic services which are not or only to be reimbursed under certain conditions
      - > No evidence of effect, or evidence of no effect
  - Closed Service Catalogues (positive lists)
    - Pharmaceuticals -> evidence of effect
    - Analysis, Medical supplies -> evidence of effect / no harm
    - Services prescribed by the a physician (physiotherapy etc)
- ⇒ ***Formal decision only on part of the services***

## Definition of services catalogue III

- Frame is given by the law on health insurance
  - Comprehensive, appropriate medical care with
  - Effective, appropriate and cost-effective services
- Application system for the inclusion of new services for the positive lists and in the case of controversial medical/chiropractic services for the open list
- Decision-making bodies (FDHA, FOPH) are based on three consultative federal commissions
  - Relevant stakeholders as permanent members or by invitation
    - ⇒ ***The impulse for development is bottom up***
    - ⇒ ***Legally predetermined and broadly supported process***

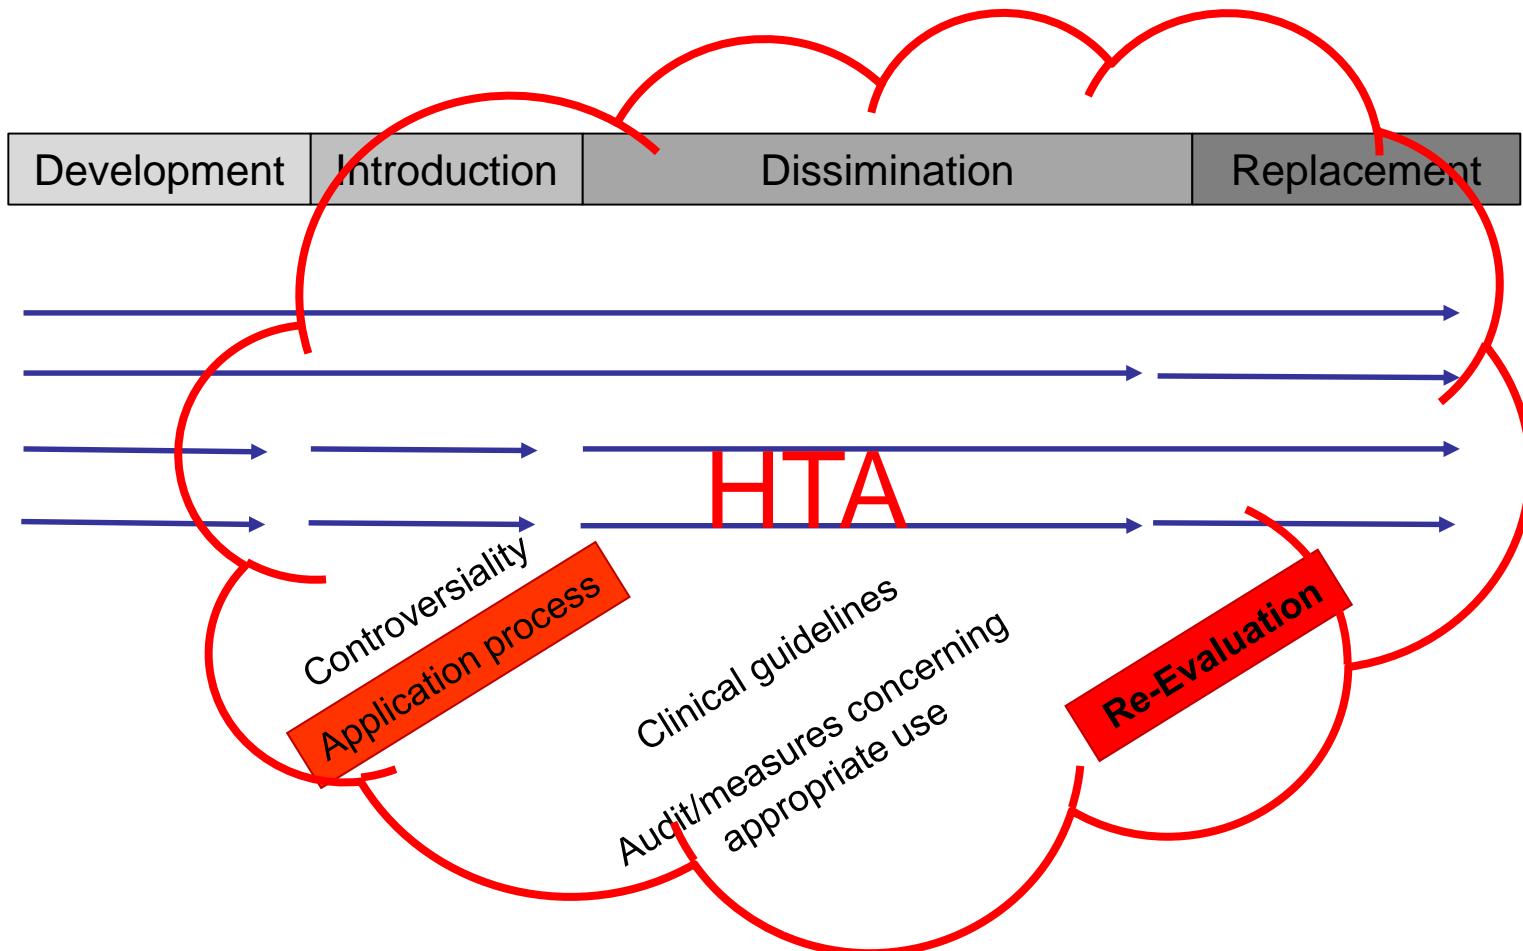

# Performance requirements

- Effectiveness
  - Assessment: **Effectiveness and Safety / Harms**
    - Clinically reproduced results for the benefit and risks
    - Study results are applicable to Switzerland
- Appropriateness
  - Assessment: Patient **Relevanz**, Social-, Ethical- and Legal requirements are given
- Economic efficiency (cost-effectiveness)
  - Assessment: **Benefits and Costs** taking into account the cost consequence (budget impact).

# Life cycle of services, use of HTA

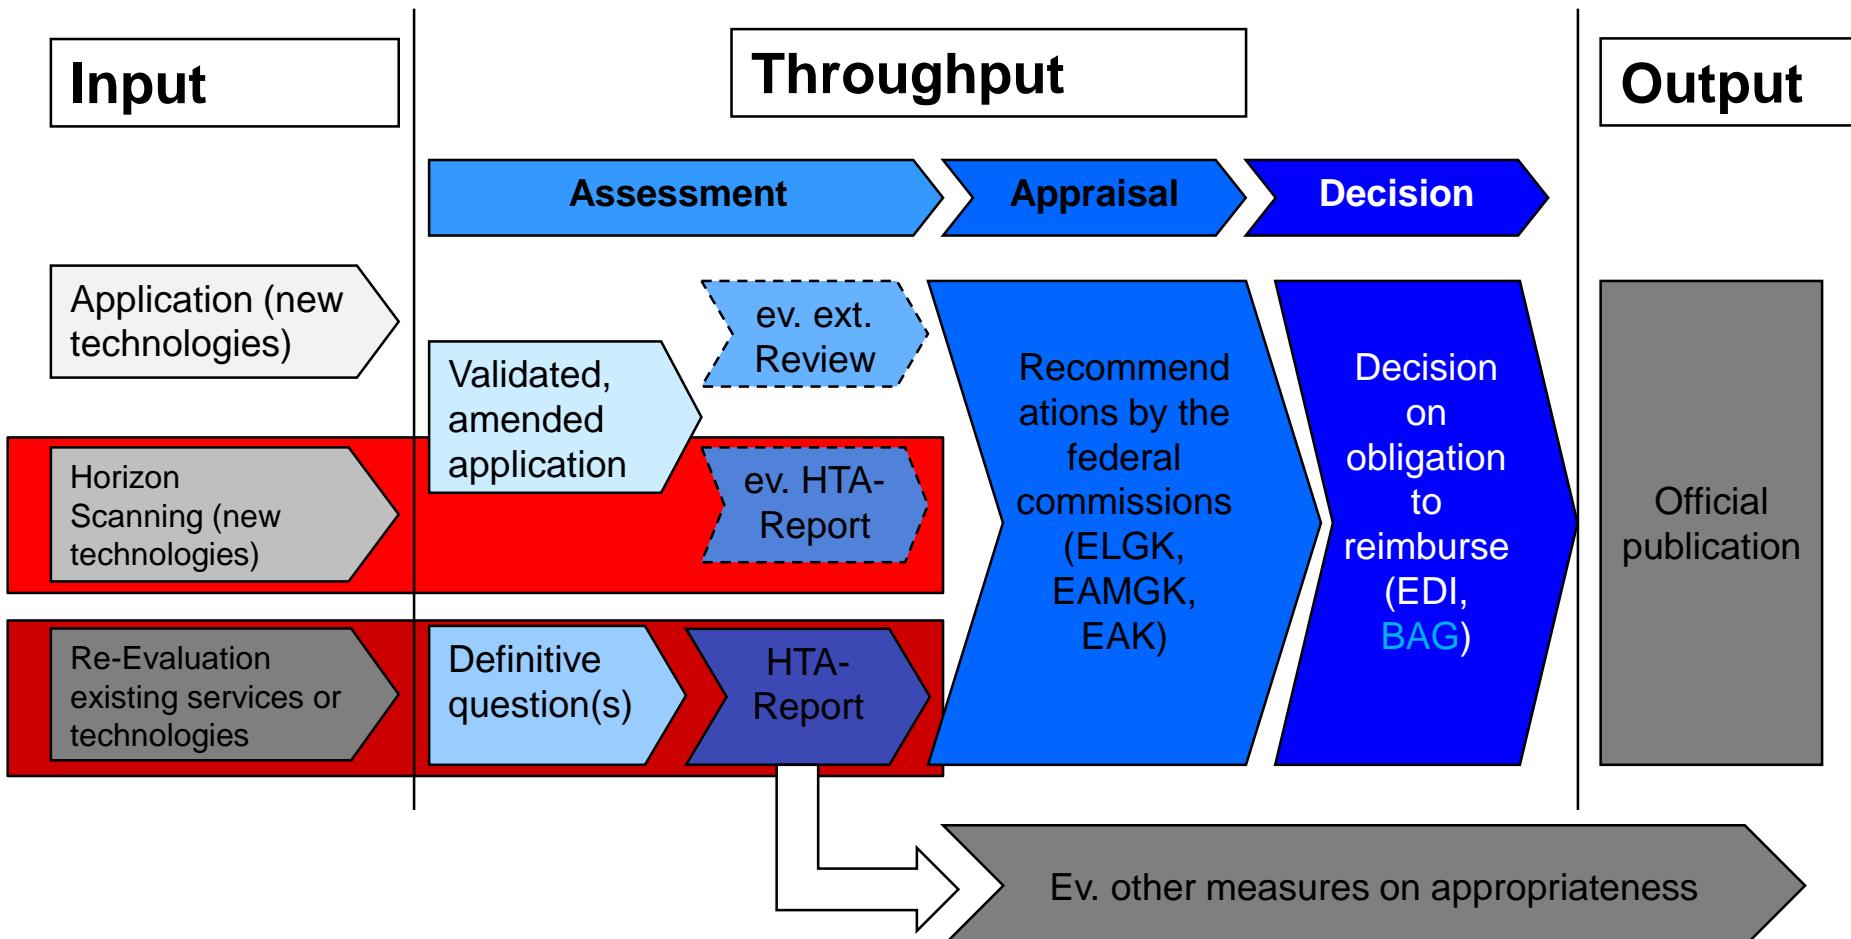

## Aim of the HTA-Program of the FOPH

- Review of compulsory health insures (CHI) covered services with the aim of removing obsolete services from the service catalogue or restricting the indications ("disinvestment") that are subject to **obligatory** reimbursement
- Process of systematic evaluation of medical procedures and technologies related to the health care of the population
- Presentation of the scientific evidence on efficacy (efficacy, effectiveness), security, cost-effectiveness/benefits as well as legal, social (incl. equal access) and ethical aspects regarding health services
- Transparency and support by the review of the EAE criteria

# Overview of the processes

# Process Re-Evaluation CHI services with HTA

## Topic finding

- Topic input by interested parties or SFOPH (plausibility check SFOPH)
- **Stakeholder<sup>1</sup>** consultation for prioritization of topics
- Prioritization and recommendation by federal commissions
- Decision HTA-topics by Federal Department of Home Affairs

## Scoping

6-9 months

- Pre-Scoping: Preanalysis and limitation/focussing of the question(s) (SFOPH)
- Tendering and contracting (SFOPH)
- Scoping: Concretization of the question(s) and development of the methodology (contractors)
- Consultation **Scientific Reviewers and Stakeholders<sup>2</sup>** Scoping report (SFOPH)
- Publication final Scope Report (SFOPH)

HTA

## Assessment

6-12 months

- Production HTA-report (contractor)
- Consultation **Scientific Reviewers and Stakeholders<sup>2</sup>** HTA report (SFOPH)
- Publication final HTA-Report

## Appraisal/ Decision

- Appraisal and recommendations by the federal commissions
- Decision Federal Department of Home Affairs / SFOPH
- Publication of decision / change in Health Insurance Law

# Topic selection criteria

## Exclusion criteria

- **Not covered by CHIS**
- Existing HTA report or HTA report in production\*
- Questions on disease-related treatment guidelines, analysis of supply structures
- Existence EAE evaluation of a service and recommendation by federal commissions within the last 3 years

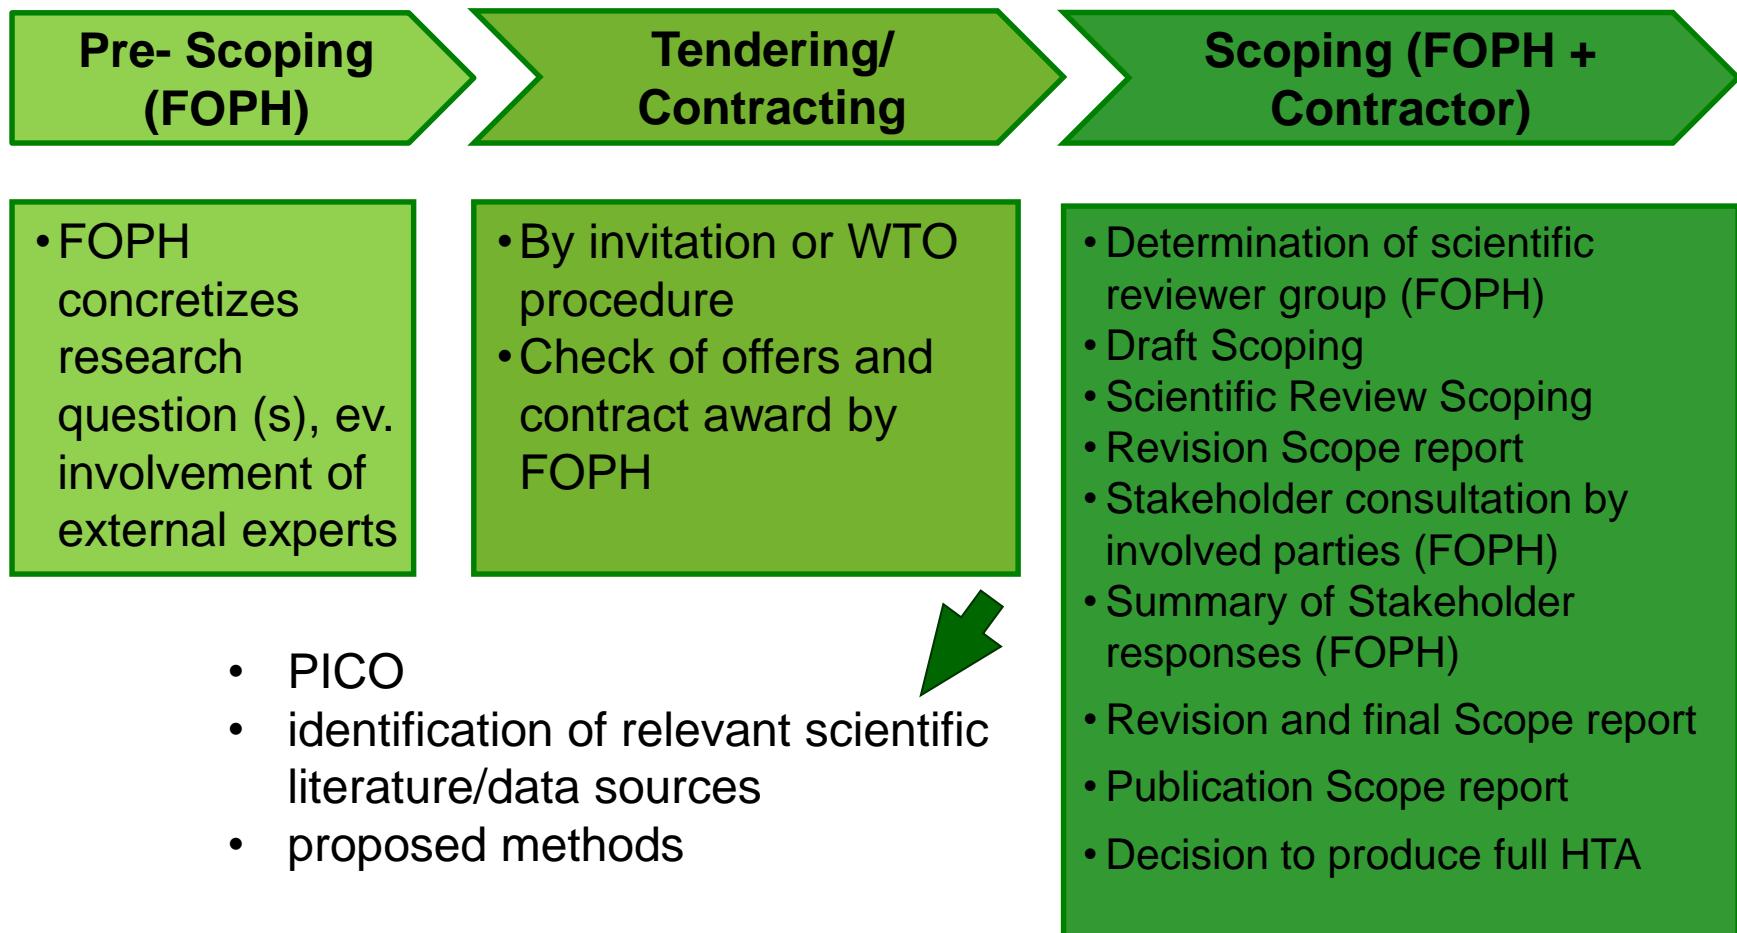

## Priorisation criteria

- **Importance of the topic** -> Frequency, severity, budget relevance
- **Need for action**-> Lack of effectiveness/efficacy, safety and/or cost-effectiveness. Overuse, underuse or misuse.
- **Possible benefits of a regulatory measures** -> Improve quality of care, cost saving
- **Feasibility of improvement measures**  
**-> regulatory capability**

\* Adaptation report for Switzerland possible

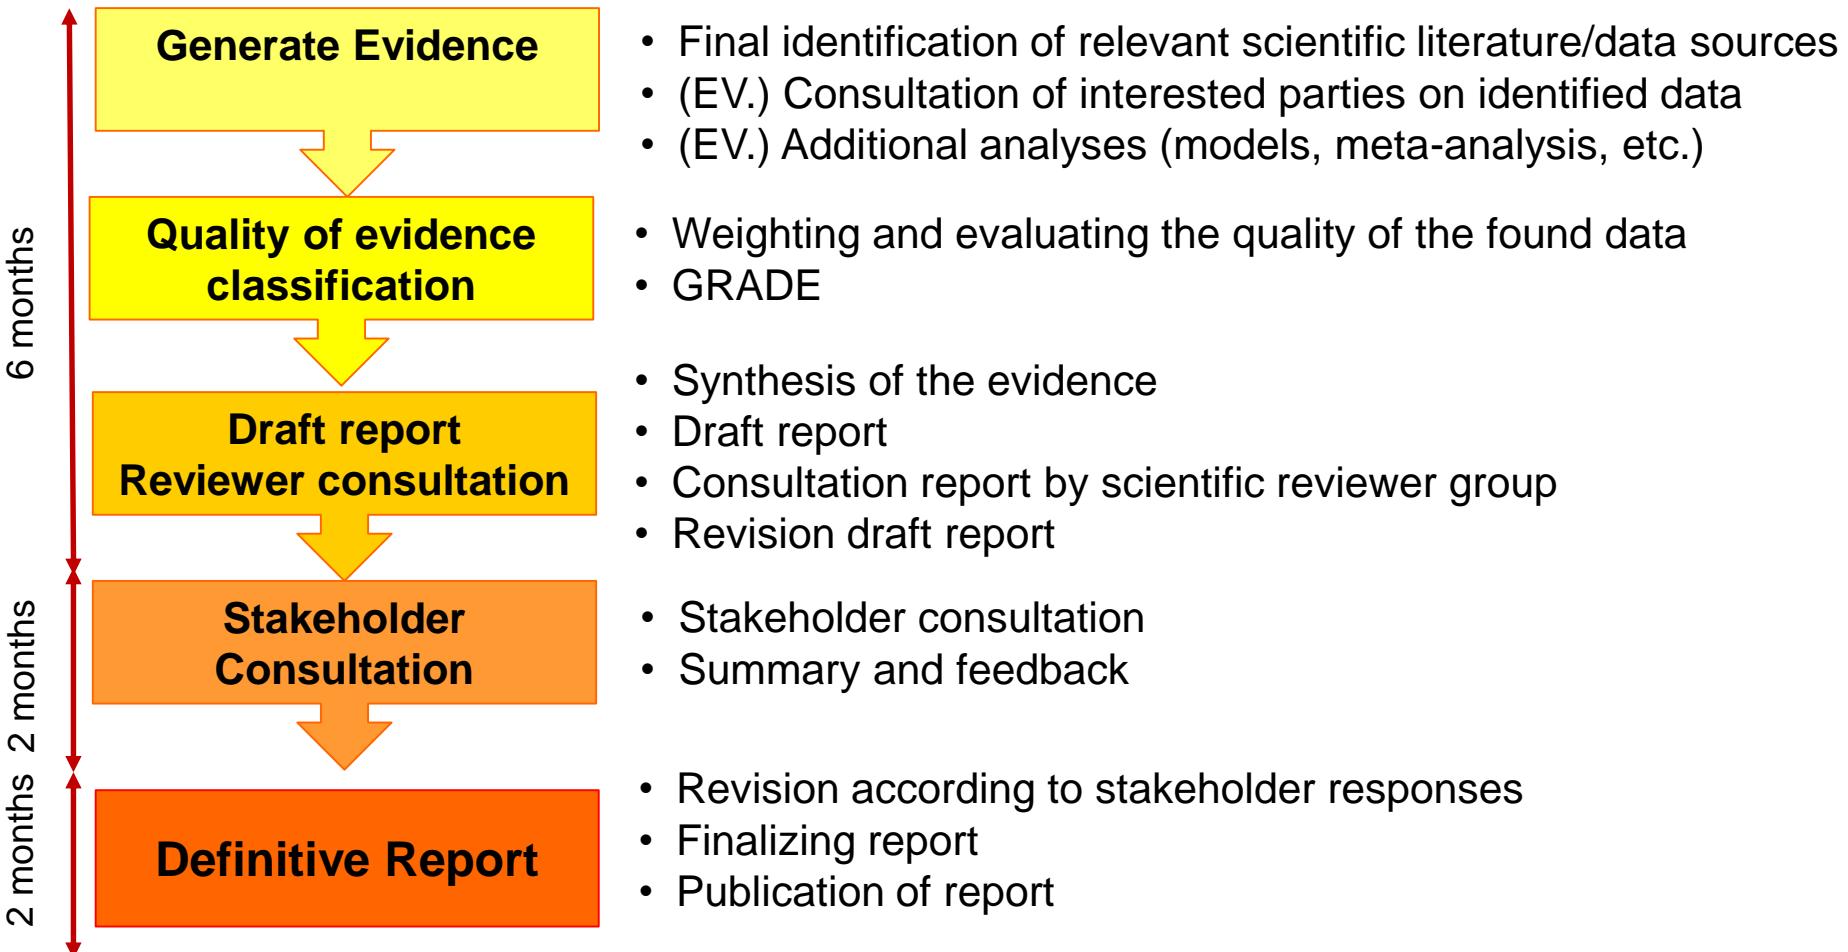

# Detail process Scoping / Contracting

# Detail process Assessment

# Appraisal and Decision

- **Appraisal** according to EAE criteria (operationalisation manual)
- **Appraisal** by the federal commissions
- Federal commissions -> Recommendation to FDHA
  - **Decision** Insurance obligation by FDHA/FOPH (medical services/pharmaceuticals)
    - Adaptation of compulsory health insured services regulation and annexes

## HTA versus EAE Review

- HTA Report (Facts) ≠ EAE rating and weighting (Appraisal)
- HTA report is designed to support an EAE appraisal and increase transparency
- **FOPH** leads the process of producing HTA reports
- **FOPH** does not make the EAE appraisal on the basis of HTA reports. **Appraisal is in the responsibility of the federal commissions** and final decision making the FDHA (or FOPH in case of pharmaceuticals)
